PAT administration and testing guidance

acer.ac/25adminguidance

Wednesday, 15 October 4pm AEDT

This webinar will focus on giving some tips and tricks for testing time. We will look at how to assign tests for both linear and adaptive assessments, as well as how to manually override starting levels.

This webinar will feature interviews with school leaders about how they are using PAT in their schools and how PAT has impacted in their school. The leaders will share how they use PAT as part of their assessment cycle and how they maximise the data for teaching and learning purposes.

PAT interviews: school leadership – hear how other schools are using PAT

acer.ac/25PATinterviews

Wednesday, 22 October 4pm AEDT

Predicting PAT learning growth

acer.ac/25predictingpat

Wednesday, 5 November 4pm AEDT

In this session we will look at distinct types of growth and how to identify these within the PAT reports. We will look at the 'Predicted Gain' tool as part of our Progress Report and outline how you can use this tool along with the other reports to predict learning growth for your students.

We will look at the Social-Emotional Wellbeing survey and how to generate and interpret the reports. We will cover looking at whole school, cohort and year level data to get an understanding of student wellbeing across a range of different areas.

How to review your students' wellbeing using the Social-Emotional Wellbeing Survey

Thursday, 20 November 4pm AEDT

PAT Science and STEM Contexts: how and why schools use these assessments

acer.ac/25PATsciencestem

Wednesday, 26 November 4pm AEDT

Join the team for a discussion about both PAT Science and STEM Contexts and how different schools are using these assessments. We will look at the reports and how you can use these for not only teaching and learning of science and STEM but also how it can impact other areas of the curriculum.
