Term 3 Webinar Calendar

August & September 2024

Understanding and making comparisons using PAT norm data

acer.ac/24patnormdata

Wednesday, 7 August 4pm AEST

This session will look at how to understand and use the PAT norm data, including using the different reports available to make comparisons to the norms. It will also cover where to access information to help better understand the norms and how they are collated.

This presentation by Dr Erica Frydenberg will address the relationship between coping, resilience, and fortitude and how these concepts can be readily translated to provide a resource for educational leaders, teachers, and students to contribute to the wellbeing and thriving of individuals and the community at large.

Coping, Resilience and Fortitude: Supporting Adolescents in Schools

acer.ac/24supportingadolescents

Thursday, 29 August 4pm AEST

Analysing data using ACER's Bands, Group and Student reports (Linear Tests)

acer.ac/24lineardata

Tuesday, 17 September 4pm AEST

This session is aimed at educators using reports from our 'linear assessments' (PAT Maths 4th Edition, PAT Reading 5th Edition, etc.). It will highlight the PAT Bands, Group, Individual and Longitudinal reports used to report results from our linear assessments. These reports can be used to understand students' achievement and observe learning progress.

This webinar will highlight the ACER Data Explorer including the Achievement, Student, Item Performance and Progress reports used to report results from our PAT Maths Adaptive and PAT Reading Adaptive assessments. Teachers can identify starting points, key trends and how to use data and resources to inform classroom decisions.
